Stewards Corner

Hello again its time for this months steward corner. While thing aren't quite back to normal yet they are headed there. The Government is set to seize your wallet which is pretty normal. Gas was the first thing to get jacked up because it's evil. We need Green Energy (ask Texas how that's working out). New taxes are already being brought to bare. (apparently they wasted to much money on impeachment trials and have to recoup it all). Minimum wage is going to be \$15.00 an hour. (Because one checkout person at the grocery store is too many). All of this will save us from ourselves, because they don't believe your smart enough to pull a lever. (that's why they pulled a bunch for you this past election). You are the Government's Leprechaun and they are after your pot of gold.

This month there are a lot of great specials for you as well as great prices while they exist. It is my recommendation that you take advantage of this while you can.

As Always Hope to See You Soon
Larry E. Myers, Steward
